In Two Sections—Section Two

January 14, 1932

ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING

AND CONSTRUCTION PRACTICE

Volume 107

July to December, 1931

McGRAW-HILL PUBLISHING COMPANY, INC.

330 W. 42d St.

NEW YORK CITY

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 107—July to December, 1931

		Page
July	2	1 to 42
July	9	43 to 80
July	16	81 to 120
July	23	121 to 158
July	30	159 to 198
Aug.	6	199 to 240
Aug.	13	241 to 280
Aug.	20	281 to 318
Aug.	27	319 to 356
Sept.	3	357 to 396
Sept.	10	397 to 432
Sept.	17	433 to 472
Sept.	24	473 to 516
Oct.	1	517 to 556
Oct.	8	557 to 596
Oct.	15	597 to 636
Oct.	22	637 to 674
Oct.	29	675 to 714
Nov.	5	715 to 754
Nov.	12	755 to 792
Nov.	19	793 to 830
Nov.	26	831 to 868
Dec.	3	869 to 910
Dec.	10	911 to 948
Dec.	17	949 to 984
Dec.	24	985 to 1020
Dec.	31	1021 to 1056

A

ACCIDENTS AND ACCIDENT PREVENTION
- Familiarity breeds contempt e598
- Safety record made by cement company. n190

AERONAUTICS
- Airports e200
  - Baltimore airport n273, n627
  - Boston airport to be extended n512
  - Catalina Island airport n*383
  - Chicago opens new airport n861
  - Selfridge Field—panel system of tile drainage. R. S. Beard *322
- Airships:
  - New bird in the skies e518
- Mooring tower for dirigibles *146
- Traffic tower n*75

American Assn. of State Highway Officials:
- Road relief work considered n543
- Unemployment relief major topic 581

American Bureau of Welding:
- Strength of structural welds. H. M. Priest *436

American Federation of Labor:
- Disputes among building trades n628

American Institute of Consulting Engineers:
- Protest free service by manufacturers ... n707

American Institute of Steel Construction:
- Consider quota plan 737

American Public Health Assn. & State Sanitary:
- Engineers meeting n515

American Society for Testing Materials:
- Developments in materials and testing .. 22
- Exhibit of testing equipment e1
- Officers elected n29

American Society of Civil Engineers:
- Philadelphia Section meets n862
- St. Paul meeting n706
- Three-day meeting 619
- Unemployment plan for engineers n586
- Votes for engineers' registration n74
- Water development main theme at Tacoma meeting 103

American Society of Mechanical Engineers:
- Hydraulics and track stresses discussed .. n944

American Society of Municipal Engineers:
- Municipal problems discussed 697
- Promise of new strength e675

American Water Works Assn.:
- Annual meeting, California section n745

American Welding Society:
- Structural welding report n514

Ammunition depot for navy to be in Hawaii n228

AQUEDUCTS
- Colorado aqueduct—hundreds of millions. e558, n585
- Hetch Hetchy aqueduct—cement coating on pipe *811
- Owens River aqueduct again dynamited. n744, n786

Arches:
- Strengthening a stone arch 1010

Architects in Ontario governed by new regulations n349

Army officers shifted n861, e870

ASPHALT
- Asphalt hardened shoulders in Connecticut. C. S. Hill *444
- Cart for filling joints *157
- Heated asphalt tank fills cracks and marks lanes *234
- Low-cost paving with gravel asphalt mixed at the pit. W. McK. White .. *1004
- Rock-asphalt seal coat for mixed-in-place surfaces. W. W. Webster *1036
- Sand-asphalt roads, Cape Cod, Mass. C. S. Hill *417
- Steel mesh filled with asphalt for light weight bridge deck. P. L. Price *419

Associated Equipment Distributors:
- Trade-in allowances discussed 195

Associated General Contractors:
- Offers construction plan 580

Association of Western State Engineers:
- Discuss water problems n744

ASSOCIATIONS
- An asset to be preserved e715
- Departmentalized industry e559
- Waste of time e434

Atlantic Deeper Waterways Assn.—meeting n587

Awards:
- 1930 most beautiful bridges n30

B

Baltimore:
- Mayor appoints engineering heads n590

Beach Erosion Board:
- Procedure is established n29

BEAMS
- Concrete beam tester *904
- Horizontal shear and shearing deflection of beams. Robins Fleming 896
- I-beams support form system for concrete deck girder spans. E. B. Stokes *185
- Welded beams resist impact favorably. 167

BEARINGS
- Bearing plates for bridges. T. E. Stanton ..... l 897
- Friction tests on bearing plates. T. H. Addie ..... l 626
- Self-protected ball bearing 387

Blueprints. See Drawing and Drawings.

BONDS
- American River Flood Control bonds voted n545
- Cleveland public improvement bonds to be sold n350
- Colorado aqueduct bond issue suit n899
- Colorado River aqueduct bonds approved. n541
- Colorado River aqueduct bonds valid ... n979
- Evils of pretenders e676
- Financial plan for unemployment e558
- Golden Gate Bridge bonds case n901
- Golden Gate Bridge bonds — hearing in suit n542
- Long-time view e283
- Los Angeles makes power bond payments in advance n225
- Nevada irrigation refinancing approved .. n544
- New Orleans bridge bonds approved ... n587
- Ohio bond issues validity n627
- Ohio court decision on Columbus sewage plant n946
- Public works bond issue before Congress. n1051
- Salt Lake City votes bonds to increase water supply ..... n 74
- San Francisco Bay Toll Bridge Co. defers interest payment n824
- San Gabriel bonds released for other flood control work n271
- Santa Monica voters approve bonds for breakwater n514
- Silver Creek water bond issue fails in Sacramento n1050
- Southern California Water District e282
- Water bond issue proposed for Southern California n190

BOOK REVIEWS
- Administration of municipally owned utilities. D. F. Wilcox 308
- Air transport operation. W. L. Smith .. 106
- Angewandte hyrdomechanik. Walter Kaufmann 459
- Archiv zur Klarung der Wunchelrutenfrage, ed. by von Klinckowstroem, von Maltzahn & Marquardt 819
- Biology in human affairs, ed. by E. M. East 106
- Building estimator's reference book. F. R. Walker 106
- Building height, bulk and form. G. B. Ford 306
- Concentration of control in American industry. H. W. Laidler 624
- Covered bridges of New England. C. E. Wagemann 624
- Economics for engineers. Bowers & Rountree 623
- Engineering mechanics. F. L. Brown ... 107
- Estimating building costs. F. E. Barnes 458
- Excentrisch beanspruchte saulen. Von A. Ostenfeld 307
- Die Festen Stadtischen Abfallstoffe. Camillo Popp 106
- Full value real estate assessment as a prerequisite to state aid in New York. C. B. Pond 307
- Graft in business. J. T. Flynn 821
- Great Plains. W. P. Webb 459
- Handbuch der Wunschelrute. von Klinckowstroem & von Baltzahn 819
- How to spend your money. Ernest McCullough 461
- Husbyggnadskonst teknik. A. H. Kreuger 460
- Life characteristics of physical property. Winfrey & Kurtz 819
- Modern dowser. Henry de France 819
- Neighborhoods of small homes. Whitten & Adams 306
- Noise and vibration engineering. S. E. Slocum 975
- Onward industry. Mooney & Reilley .. 107
- Paper and discussions on subsoil hydraulics. A. N. Khosla 308
- Patent law for chemists, engineers and executives. F. H. Rhodes 460
- Physics of high pressure. P. W. Bridgman 820
- Plasticity. A. Nadai 818
- Policy and ethics in business. C. F. Taeusch 458
- Prosperity problems. A. G. Dana 624
- Psychology of the inventor. Joseph Rossman 460
- Purification and disposal of sewage. C. J. Nurse 107
- Rainfall and stream runoff in southern California since 1769. H. B. Lynch 460
- Reinforced-concrete bridges. Scott & Spicer 108
- Reinforced-concrete reservoirs and tanks. W. S. Gray 975
- Roeblings. Hamilton Schuyler 974
- Rostschutz rostchutzanstrich. Suda & Salvaterra 458
- Russian publications on welding 976
- Significance of waterborne typhoid fever outbreaks. Wolman & Gorman 306
- Simplified calculation of statically indeterminate bridges. C. G. Krivoshein .. 108
- Stabilization of employment in Philadelphia. W. N. Loucks 976
- Surveyors' tables. J. F. Robisch 623
- Tabullenbuch fur die berechnung. E. Wild 308
- Technical writing. T. A. Rickard 461
- Theorie und bau von turbinen-schnellaufern. Kaplan & Lechner 623
- Theory of simple structures. Shedd & Vawter 821
- Track practice on American and Canadian Railways. A. F. Harvey 307
- Tube railway construction. H. G. Salmond 307
- Uber Geschwindigkeitsformeln. Von W. Soldan 976
- Underground systems reference book 108
- Underpinning. Prentis & White 820
- Volga flows to the Caspian Sea. Boris Pilnyak 821
- Water pollution research. H. T. Calvert 307
- Water transportation. M. E. Pellett .. 108

Breakwaters:
- Santa Monica voters approve bonds for breakwater n514

BRICKS AND BRICKWORK
- Brick: critical analysis of practices and trends. O. F. Rost 441
- Can the brickmaker improve his distribution? O. F. Rost *536
- Common brick industry's rules are revised n191

Bridge abutments and piers:
- Simplified bridge abutment contains small quantity of concrete. R. C. Hardman .*857

BRIDGE ACCIDENTS AND FAILURES
- Collapse of 72-year old bridge. Robins Fleming ..... l 149
- Falsework failure wrecks Kentucky highway span n151
- Iowa bridge wrecked by truck and trailer n*708
- Thirty-second accident damages bridge. n*427

BRIDGE CLEARANCES
- Bridge clearances. George Runciman-P. K. Schuyler ..... l 71
- Illinois—army board to study clearances n381
- Mississippi River clearances set for future n1050
- Timely undertaking e558
- Unprogressive decision e3

BRIDGE CONSTRUCTION
- Bracing in concrete viaduct for longitudinal forces *61
- Cable-stringing at St. Johns Bridge. B. Boblow *779
- Cantilever:
  - Brazil—long rigid frame bridge erected by Cantilever method. Rolf Schjodt .. *208
  - Cost of through cantilever bridges. E. W. Owens ..... l 784
  - Cost of through cantilever bridge. H. G. Berring ..... l 540
  - Scotland builds through cantilever concrete bridge *300
- Erection of truss bridge. Crider & Neyenesch *799
- Evansville bridge piers near completion n*228
- George Washington bridge — erecting towers and floor steel. A. S. Halteman *646
  - Form system speeds paving of floor .. *654
- High-level bridge eliminates old swing span. C. H. Sandberg *796
- I-beam support form system for concrete deck girder spans. E. B. Stokes *185
- Jack-knife bridges in Boston replaced by bascule spans *718
- Ohio rushes bridge building for unemployment. J. H. Burkey (map) ... 927
- Pittsburgh bridge demolished to make way for new n*744
- Railway difficulties in India *416
- Ribbed-arch bridge used for Parkway overpass *993
- Sealing bridge cofferdams by grouting. E. O. Goldstein *610

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

S ...recting 154-ft. plate ...Shortridge Hardesty.....*452
S ...idge at Connellsville, Pa., ...ected on falsework of steel bents..*345
Suspension bridges, multi-span. J. C. Adams.....l 270
Three hinged steel arch erected without falsework. W. F. Welsch.....*94
Underpasses drained by automatic pumping plants. Ruark & Keefer.....*372
Toll:
Kentucky bridge program near completion.....n980
Unbraced steel pile bents used to erect railway truss.....*345
Welding used to reinforce railway bridge. A. M. Knowles.....*411

BRIDGE DESIGN

Bearing plates for bridges. T. E. Stanton.....l 897
Bowstring arches. A. A. Eremin.....l 784
Concrete bowstring arch bridge design. C. B. McCullough.....*337
Continuous-truss design of Illinois River bridge. C. H. Sandberg.....*797
Decorative treatment of track-elevation bridges.....*856
Designing the first Freyssinet arch to be built in the United States. McCullough & Gemeny.....*841
Friction tests on bearing plates. T. H. Addie.....l 626
George Washington bridge at Fort Lee, New York.....*640
Approaches to George Washington bridge.....*657
Girder beam bridges in Georgia. S. B. Slack.....*100
High strength concrete used in new Ft. Worth bridge. C. M. Thelin.....527
Jack-knife type bridges. C. H. Sonntag..l 898
Ninety-four years of bridges at Harpers Ferry. P. G. Lang, Jr.....*446
Palestine—modern bridges.....*691
Ribbed-arch bridge used for Parkway overpass.....*993
Rigidity of steel rigid frame bridges shown by deflection tests. R. M. Hodges.....*371
San Francisco bridge—large scale structural models.....e81
San Francisco-Oakland bridge—model studies planned.....n113
Steel bridge design competition.....n981
Vierendeel truss. Dana Young.....*244
Bridge floors:
Steel mesh filled with asphalt for light weight bridge deck. P. L. Price....*419
Bridge history.....e434
Ninety-four years of bridges at Harpers Ferry. P. G. Lang, Jr.....*446
Bridge piers:
Bridge abutment contains small quantity of concrete. R. C. Hardman.....*857
First concrete pier on Seattle waterfront. W. F. Way.....*914
Bridge renewals and repairs:
Dynamited bridge reconstructed. Paul Emery.....*1005
Strengthening a stone arch.....*1010

BRIDGES

Africa:
New bridge over the Nile..... 52
Approach to West End-North Side bridge, Pa.....*948
Aurora, Ill.:
Memorial bridge opened.....n*786
Boston:
Jack-knife bridges replaced by bascule spans.....*718
Bowstring-arch bridge of reinforced concrete. C. M. McCullough.....*337
Brazil:
Herval Bridge — long rigid frame bridge erected by cantilever method. Rolf Schjodt.....*208
Chicago:
Bascule bridge..... *34
Bascule bridge started..... n30
Bascule bridge to replace old lift bridge.....n929
Old lift bridge to be removed.....n*981
Cleveland:
Engineers report on bridge approaches.....n349
Fort Worth:
High strength concrete used in new bridge. C. M. Thelin.....*527
Fraser River bridge authorized.....n670
Highway:
Arizona bridge.....n*381, n669
Ohio National Highway—last covered bridge to be replaced.....n467
Wilmington, Del., bridge.....1020
Three-hinged steel arch erected without falsework. W. F. Welsch.....*94
Holland:
Steel arch bridge with concrete approaches.....n*861
Hudson River. See New York City, George Washington.
Illinois River:
Santa Fe railway high-level bridges eliminates old swing span. C. H. Sandberg.....*796
Long lift bridge at Hardin, Ill.....n*273
Los Angeles bridge contract given to home firm.....n979
Massachusetts:
Three bridges to be built by out of state firm.....n541
Mount Hope Bridge Co. to be reorganized.....n979
New Orleans—Public Belt Bridge bids opened.....n465
Public Belt R.R. bridge contracts awarded.....n512
New York:
Mid-Hudson bridge returns.....n629
New York City:
George Washington bridge approaches.*657
George Washington bridge—auspicious beginning.....e675
Design.....*640
Erecting towers and floor steel. A. S. Halstman.....*646
Form system speeds paving of floor.....*651
Hudson is bridged.....e638
Hudson River bridge—chronicle of great engineering.....e637
Kill van Kull bridge.....n*785, e794
New Zealand to have bridge over Auckland harbor.....n514
Norfolk & Western Railway:
Decorative treatment of track-elevation bridges.....*856
Palestine:
Modern bridges.....*691
Pittsburgh:
Westinghouse bridge.....n*360
Pontoon bridge erected by army engineers.....n*311
Pontoon bridge in Africa..... 611
Portland, Ore.:
St. Johns bridge dedicated.....n*28
St. Johns bridge—stringing cables. R. Boblow.....*779
Railway:
Baltic Island bridge will link Germany and Sweden.....n384
Belleville concrete arch bridge.....*389
Canadian bridge erected at Lillooet.. 336
Erie bridge at Akron reinforced by welding. A. M. Knowles.....*411
Red River bridge at Garland City, Ark. reconstructed. Paul Emery.....*1005
Revere, Mass.:
Ribbed-arch bridge used for Parkway overpass.....*993
Rogue River bridge uses the first Freyssinet arch to be built in the United States. McCullough and Gemeny *841
San Francisco:
Golden Gate bridge—optional contracts to low bidders.....n*151
Golden Gate—misleading statements.. e81
Lone bid for bonds rejected.....n111
Oakland bridge model.....n*428
Oakland bridge project speeded by legislation.....n227
Oakland bridge started.....n590
Third Street bridge contract awarded.n670
Scotland:
Through-cantilever concrete bridge...*300
Seattle, Wash.:
Lake Union bridge.....n*111
Steel mesh filled with asphalt for bridge deck. P. L. Price.....*419
Shipping and erecting 154 ft. plate girders. Shortridge Hardesty.....*452
Suspended girders used to avoid pier between railroad tracks.....*257
Suspension:
Multi span built at Pittsburgh. J. C. Adams.....l 270
Shelter Island bridges..... 634
See also New York City, George Washington.
Toll:
Kentucky completes first unit of program.....n315
Kentucky and West Virginia open new.....n*785
Lake Champlain bridge—it can be done.....e985
Maine to open new bridge.....n590
White River Bridge—I-beams support form system for concrete deck-girder spans. E. B. Stokes.....*185
Two Rivers, Wis., bridge..... 948
Vancouver, B. C.—bridge proposed.....n272
Vienna, Md.:
Highway bridge.....n*809

BUCKETS

Clamshell bucket.....*277
Clamshell bucket characteristics. P. T. Robin.....*454
Clamshell bucket for hard digging.....*390
Concrete bucket.....*231
Loader with vibrating screen attachment.....*503
Buckets. (See also Excavating machinery.)
Building accidents and failures:
Derrick failure kills one.....n189
Designer of failed coal pocket guilty of manslaughter.....n899

BUILDING CONSTRUCTION

British Builders Institute inspects American practice.....n544
Condition surveys of buildings. H. deB. Parsons..... 126
Coordinated construction.....e557
Federal base unit started.....n707
Foundation of wood-piles has artificial groundwater.....*70
Ghost to be laid.....e870
Home-building conference in Washington 930
House construction with steel frame. T. J. Foster.....*740
Houses of welded steel construction. A. F. Davis and B. S. Havens.....*830
Housebuilding—pioneer work.....e912
Housebuilding—practical ideal.....e950
I-beam support form system for concrete deck-girder spans. E. B. Stokes *185
Jig assembly for welding fabrication proves its efficiency.....*688
McGraw-Hill building — cooperation of builder with architect and owner. A. J. Eken.....*566
No hibernation.....e756
Possibilities in reconditioning.....e912
Quantity surveys made by builders association..... 730
Sprinklered building, the highest. Eadie, Freund and Campbell.....l 783
Building Construction. (See also Welding.)

BUILDING DESIGN

Cast-in-place construction applied in new concrete house.....*166
Chicago Fine Arts building reconstructed to house industrial museum. T. E. Sanford.....*851
Cross method applied to frames under vertical load. E. A. MacLean.....l 1049
Earthquake bracing of tall building. Norman Green.....*364
Functional building design.....e557
Light-weight floor fill formed by cardboard cartons.....*702
McGraw-Hill building—planning the construction. J. A. Foulhoux.....*560
Unusual composite columns support St. Louis newspaper plant. C. W. Martin *1042
Vertical-load analysis of rigid building frames made practicable. J. E. Goldberg.....*770
Vertical-load analysis by repeated approximations. O. H. Pilkey.....l 941
Walls for earthquake bracing of tall buildings. Norman Green.....*364
Wind resistant:
Empire State wind-test installation. F. H. Frankland.....*777
Wind design for tall buildings, pt. 5.. 20
Wind design for tall buildings. E. A. Richardson.....l 110
Building design. (See also floors, girders, steel and steel work.)

BUILDING LAWS AND REGULATIONS

Arkansas cities cannot prohibit building in proposed road area.....n899
Code revision..... 440
Home loan discount banks are proposed.n980
Building moving:
Building moving progress..... e45
Eight story steel frame building moved in Indianapolis..... *4

BUILDINGS

Albany, N. Y.:
Federal building.....n*824
Boston:
New Old South Church tower straightening.....n670
State Department building approved..n465
Chicago:
Fine Arts building reconstructed to house industrial museum. T. E. Sanford.....*851
Marshall Field office building.....n*74
Columbus:
State office building.....n*426
Des Moines:
Office building uses shielded arc process in battledeck floor construction....*344
Indianapolis:
Telephone building moved and business going on as usual..... *4
Memphis:
Engineer district offices.....n*188
New York City:
British engineers inspect.....n585
McGraw-Hill building—cooperation of builder with architect and owner. A. J. Eken.....*566
Planning the construction. J. A. Foulhoux.....*560
Planning elevators for special service. C. F. Scott.....*560
Radio City plans.....n943
U. S. Government Assay Office—steel-cylinder pile foundation construction. N. A. Melick.....*267
Waldorf Astoria has removable roof.n*541
Pittsfield, Mass.:
Shop with large window area and welded frame.....n*385
Princeton's community center plans approved.....n348
St. Louis:
Unusual composite columns support newspaper plant. C. W. Martin..*1042
St. Paul, Minn.:
Court house and city hall.....n*1015
Washington, D. C.:
Hospital contract awarded after long delay.....n272
U. S. Department of Commerce.....n*901
Wilmette, Ill.:
Baha'i Temple.....n*189
Wilmington, Del.:
Dupont office building uses welding for joints. F. P. McKibben.....*374
Business conditions:
Prices are rising.....e756

C

Cable railway:
Passenger-carrying cableways..... 419

CABLES

Device measures cable tension.....*33
Rope-strand cables.....e756
Socketing cable test specimens with high early strength cement. W. K. Hatt...*147

Stringing rope-strand cables features St. Johns bridge construction. R. Boblow. *779
Tension indicator *830

CAISSONS
Accidents:
Rescue of diver blown out of caisson 402
Grouting solves unwatering problem. C. C. Hopkins 1 783
Testing pit sunk as open caisson *343
California Assn. of Concrete Pipe Mfgrs.:
Annual convention n545
Cameron, Donald, inventor of septic tank dies n272
Canadian Good Roads Assn.:
Annual convention n543

CANALS
All American Canal water users agree on allocation n348
Calumet-Sag project opposed by railroads n864
Chignecto Canal Commission n545
Cleaning irrigation ditches by machine. George Ebner *172
Concrete lining for irrigation canals. C. L. Huff 1 270
Concrete lining for irrigation canals in Texas. A. J. Moore *60
Irrigation:
Lining for irrigation canals. C. L. Huff 1 270
Lining for irrigation canals in Texas. A. J. Moore *60
New Orleans to Galveston canal possible within three years n226
Nicaragua canal e159, n188, n745, e793, e949, n981
Old irrigation canal replaced by precast concrete pipe. H. H. Kidder *222
Panama Canal *162, e159, n788, 967
Panama:
Madden Dam n382, n465, *548
Carpentry's old book of prices. H. O. McMillan 1 187

CEMENT
Can cement durability be predicted? Carlson and Bates 130
Hot cement discussed at A.S.T.M. meeting e1
Leadership in industrial cooperation e123
Scale for weighing bulk cement *120
Variations do not condemn cement test proposed by Merriman, Johnson and Baylis 304
Water-cement ration—virtue in simplicity e716

CHICAGO
City engineer demoted n348
New diagonal thoroughfare *952
Paving program cut n228
Plans new terminals n156
Rubber pavement after six years *803
Sanitary district reports to Supreme Court n73

CITIES
City engineering evolution during 30 years. Robert Hoffman 340
City manager plan to be adopted by Binghamton, N. Y. n77
Cleveland drops manager system n785
Municipal problems discussed at Pittsburgh 697
Nutley rejects town manager plan n743
Pensacola, Fla. adopts city manager plan n426

CITY PLANNING
Building Boulder City *846
Churchill, Manitoba, to be model town n77
New Delhi—capital city of India, 1931 *413
New York City—ten years of planning e950
Philadelphia regional plan completed n1052
Pittsburgh — garden-home community planned n274
Planning commissions increase 371
Rome has new scheme 394

CLEVELAND
New activated-sludge plant *1034
Public improvement bonds ordered sold n350
Union terminal for subway built under busy street. L. C. Rogers *140
Clutches, heavy duty *431

COFFERDAM
Ontario power plant largely built during winter. Hutchison and Legget *678
Sealing bridge cofferdams by grouting. E. O. Goldstein *610

COLUMNS
Base slabs for columns. C. H. Sandberg 1 424
Brick-incased columns stronger 696
Built-up wood columns conserve lumber. J. A. Scholten *333
Method of supporting forms patented. M. Hirschthal 1 269
Steel slabs for column bases. R. G. Merriam 1 224
Tests of concrete columns with solid metal cores 443
Unusual composite columns support St. Louis newspaper plant. C. W. Martin *1042
Welded joint carries column load of 380 tons in alteration job. F. P. McKibben *374

COMPRESSED AIR AND AIR TOOLS
Air compressors, ball bearing *791
Air compressor mounted on tractor *633
Air cooled compressor unit *777
Portable air compressor *158
Suction lifting device for cranes and derricks 904
Trailer mounted air compressor *318

CONCRETE
Better concrete control e1022
Black concrete pavement laid on street in residential section. G. R. Hartley *98
Cement-water ratio. Inge Lyse *723
Cement-water ratio by weight used before. A. W. King 1 013
Constant consistency as an aid to concrete control. T. C. Powers 308
Controlled concrete e358
Controlling concrete consistency. G. A. Smith 1 704
Crack occurrence and control in concrete pavement. Clifford Older 50
Cracks in concrete pavement. H. F. Faulkner 1 380
Cracks and joints in concrete pavement. C. S. Pope 1 346
Formwork:
Form system speeds Hudson River bridge floor paving *654
Form tie removed by hand *868
Fourth ingredient e950
High strength concrete used in new Ft. Worth bridge. C. M. Thelin *527
Hot mixing water weakens concrete 535
Machine for testing concrete beams *117
Permeability specimen for comparison tests. C. M. Chapman *9
Preshrunk concrete makes smooth pavement patches. L. P. Corcoran *250
Quality and problems of design being studied n27
Rotation raises strength of concrete test cylinders, L. E. Hough *618
Segregated concrete removed in repairing old multiple arch *180
Shearing resistance of concrete for earthquake bracing. W. A. Slater 1 741
Stress measurement within mass concrete by strain gage. E. C. Eaton *615
Tests of concrete columns with solid metal cores 443
Water-cement ratio — virtue in simplicity e716
Water-cement. (See also Concrete, cement water ratio.)
Winter construction:
